Akshaya Muthukumar

An aspiring Front-End Developer

✉ www.akshayamuthukumar.online   ⬛ github.com/akshayamuthukumar   ⌂ akshaya1907@gmail.com   ☎ +91-9629907152

SKILLS

Programming Languages
JavaScript, HTML, CSS, C, C++, Python

Libraries, Tools & Platforms
Bootstrap, Git, GitHub, GitHub Pages, Web Hosting

PROJECTS

www.guhanhardwares.com
Single Page Website for Guhan Hardwares, Madurai
Dec 2018-Jan 2019

Technologies and Tools Used: HTML, JS, CSS, Bootstrap 3, Google Maps and GitHub
Hosting Tools: GitHub Pages and www.bigrock.in

This website is built for a hardware shop in Madurai and the website has information on the product categories, gallery and contact information in single page. This website uses Google Maps to guide users to the company's branch locations.

www.akshayamuthukumar.online
Portfolio website for myself
Dec 2018- April 2019

Technologies and Tools Used: HTML, JS, CSS, Bootstrap 4 and GitHub
Hosting Tools: GitHub Pages and www.bigrock.in

This website is built as a portfolio site to provide details on the projects that I work. This has information on the projects with links to code and demo.

www.akshayamuthukumar.online/My-BookList/
Application for users to manage booklist in browser's local storage
Dec 2018

Technologies and Tools Used: HTML, JS, CSS, Bootstrap 5 and GitHub
Hosting Tools: GitHub Pages

This web application is built for users to manage their books in browser's local storage. Users will be able to add books with title, description, rating, etc., This application is created based on a tutorial to learn UI development and later I have enhanced its features.
